

Svaryaa

PLANS AND PRICING

Your phone, answered.

An AI receptionist for your restaurant that answers every call, books the table and takes the order — in English, Hindi, Marathi and Gujarati.

1 · WHAT YOU GET

A receptionist that never misses a call

Svarya picks up every call to your restaurant, understands what the caller needs, and gets it done. Your team stays with the guests in front of them.

Answers every call, around the clock

Nights, weekends and holidays included. Callers never reach a busy tone or voicemail.

In your callers' language

English, Hindi, Marathi and Gujarati, including callers who switch language mid-sentence.

Books tables

Checks your hours and seating, confirms the details and gives the caller a booking code.

Takes delivery and takeaway orders

Itemised orders from your real menu, with totals and a confirmation code.

WhatsApp confirmation

Every booking and order is confirmed to the caller on WhatsApp.

Hands over to your team

Large parties, complaints and special requests are passed to your staff with the full transcript.

Your own dashboard

- ✓ Every booking and order the agent takes, with status
- ✓ A written transcript of every call, so you can listen back and trust what was said
- ✓ Your menu, hours, seating and house rules — you set them once and the agent uses only those
- ✓ Calls and minutes used this month, day by day

It only says what you have set up. The agent uses your real hours, menu and rules and never invents an answer. When it is unsure, it passes the call to your team.

2 · PLANS

Simple monthly plans

Every plan includes one AI agent on its own dedicated phone number, answering 24 hours a day. A “call” is one answered conversation, of any length.

STARTER	GROWTH	CUSTOM
₹8,999 / month A single restaurant or café	₹14,999 / month A busier outlet, or bookings + delivery	₹9,999+ / month Chains and multi-location, priced together
Calls included 500	Calls included 1,000	Calls included up to 1,200
AI agents 1	AI agents 1	AI agents agreed
Phone number 1 dedicated	Phone number 1 dedicated	Phone numbers agreed
Calls at once up to 2	Calls at once up to 4	Calls at once agreed
Extra calls ₹15 each	Extra calls ₹15 each	Extra calls ₹12 each

ONE-TIME SETUP	PRICE
Setup and onboarding Phone number activation, WhatsApp set-up, menu and FAQ import, 2–3 live test calls and a 30-minute walkthrough with you.	₹4,999

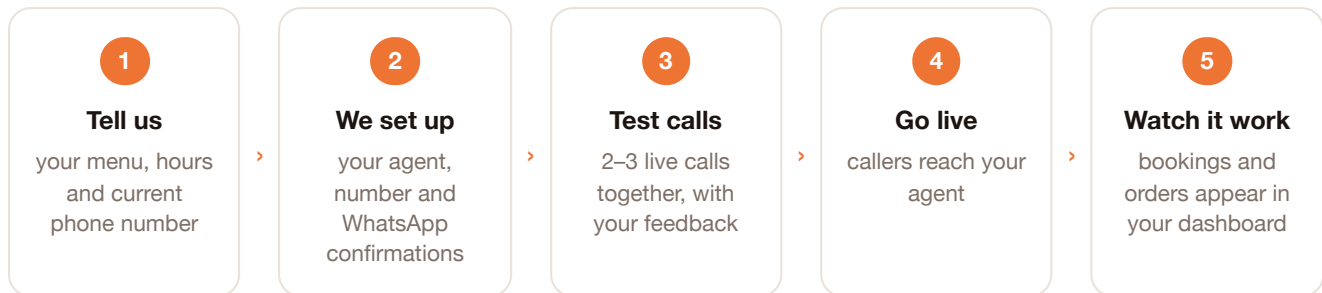

How the limits work

- **Calls at the same time.** Starter handles up to 2 callers at once and Growth up to 4. If every line is busy, the next caller hears a polite message asking them to call back.
- **Extra calls.** Go past your monthly calls and each extra call is charged at the rate shown. You are never cut off.
- **Custom.** More locations, numbers, agents or simultaneous calls are priced together, based on your real volume.

Concurrent-call limits are confirmed during pilot load testing. Prices are before applicable taxes.

3 · GETTING STARTED

Live in five steps

What we need from you

- Your restaurant's name, address and opening hours
- Your menu with prices, and answers to common questions
- The number your callers use, or a new number for us to assign
- One person to test the first calls and give feedback

Good to know

Private by design

Your data is separated from every other restaurant's at database level. Service keys are encrypted and never shown.

Your language, your rules

The agent speaks the caller's language and follows the rules you set, including what it must never do.

Optional add-on

Your own WhatsApp sender number instead of the shared one, on request.

Pilot terms

Svaryaa is in pilot. We agree the final terms with you in writing before you go live.

See it in action. Book a live demo at www.svaryaa.com and hear Svaryaa answer a call for your kind of business.
